Education

Colgate University — GPA: 3.60/4.00

August 2022 - May 2026

B.A. in Computer Science and Economics

- Graduated with Honors in Computer Science
- Selected to Phi Eta Sigma National Honor Society (top 20% of students)
- Relevant Coursework: International Finance, Money and Banking, Microeconomics, Macroeconomics, Game Theory, Object-Oriented Programming, Data Structures & Algorithms, Discrete Math, Honors Research (Computer Science)

International Baccalaureate Diploma — Grade: 44/45

March 2020 - November 2022

Valedictorian (1st out of 150 students)

Finance and Technology Experience

FactSet

June 2025 – August 2025

Product Management Intern

New York, NY (on site)

- Drove \$500K+ in vendor cost savings by spearheading internal automation of company reference data, enhancing capital efficiency and optimizing FactSet's \$10M+ external data spend strategy, improving efficiency KPIs.
- Performed data due diligence on internal vs. vendor datasets for 5,000+ U.S. companies, identifying coverage gaps and delivering insights that de-risked data quality and informed automation priorities.
- Managed build-vs-buy decisions by aligning product and engineering teams to assess entity and URL data integrity, delivering actionable insights that improved core product reliability and shaped roadmap planning.
- Designed and deployed an AI RAG agent prototype that dynamically rewrites search queries using LLM feedback loops, improving retrieval accuracy and demonstrating scalable, context-aware augmentation for future product workflows.

Johns Hopkins

June 2024 – August 2024

Technology Consultant Intern

Carlisle, PA (on site)

- Streamlined workflows for 500+ users via Office 365/cloud automation, reducing downtime by 30% and boosting KPIs.
- Led stakeholder requirement gathering and coordinated cross-functional teams to deliver documentation and training protocols, driving adoption, change management, and strategic alignment.

Colgate Investment Group

September 2023 – May 2026

Analyst

Hamilton, NY (on site)

- Conducted discounted cash flow (DCF) modeling, financial statement analysis, and strategic research on growth catalysts to forecast long-term performance and relative valuation.

Leadership

Mi Pyme Digital | President and Founder

January 2020 - Present

- Founded and scaled a nonprofit consultancy supporting 200+ SMEs on digital strategy, driving operational efficiency and post-COVID recovery through technology adoption.
- Delivered full-stack digital solutions (websites, automation, and social media) that improved client workflows and achieved an average 15% annual revenue growth across the portfolio.

Department of Computer Science and Mathematics | Teaching Assistant

January 2023 - May 2026

- Led workshops for 50+ students in Python, Java, and Calculus I, reinforcing technical and analytical problem-solving.

Projects

Modeling Financial Networks for Systemic Risk | Senior Honors Thesis

- Built a Monte Carlo framework to model DeFi liquidation risk using empirical ETH price data and oracle mispricing (TWAP vs. close), estimating liquidation probabilities and collateral buffer.
- Extended to multi-loan portfolios, showing correlated liquidation risk under shared collateral and validating robustness via sensitivity analysis (simulation size and random seeds).

Personal Finance Tracker Model

- Designed and launched a Python application (pandas, CSV) that translated user pain points in manual expense tracking into an intuitive product, automating categorization, spend visualization, and savings insights.

Skills & Other Experiences

Languages: English (Native), Spanish (Native), French (Fluent), German (Basic)

Technical Skills: Agile, Git, Jira, Figma, Excel, Python, Java, HTML/CSS, JS, LaTeX, Tableau, SQL, SAP S/4HANA

Modeling: Completed *Training the Street* and *Wall Street Prep* financial statement modeling courses

Certifications: Harvard Business Analytics, Accounting & Economics Programs; Wall Street Prep: Accounting

Other Experiences: Nomura IB Insight Series (NYC, 2024); Pearl Health Micro-Internship in Data Analytics (May 2024)

Interests: Financial technology, Surfing, Soccer, Poker, Entrepreneurship
